**Subject:** UI work search

Hey guys,

I was told of a potential request on UI/work search. Here is some info. that might help:

1. Generally in order to get UI benefits, a claimant has to perform at least 4 work search actions per week. This 4 work search actions requirement is in statute at s. 108.04(2)(a)3. (Previously, the statute required 2 actions per week, but it was changed to "at least 4" (or more in some cases) in the 2013 budget act.) As far as what constitutes a permissible work search action, this is, pursuant to the statute, determined by DWD by rule (see s. DWD 127.01(1) in the Admin. Code).
2. We have also had a separate issue the last few years of work search *waivers* following a DWD rule change that cut down on the availability of work search waivers. If a claimant has a waiver, then the requirement described in #1 does not apply. Previously, people were able to in some cases get what would essentially be a complete waiver of the work search requirements for their entire benefit year if they were expected to be hired back at some point, but the rule changed it so that a claimant can only get an 8-week waiver (+ a 4 week extension). That change took effect I think in 2015 some time (see [https://docs.legis.wisconsin.gov/code/misc/chr/lrb/chr\\_13\\_081\\_final\\_rule\\_filed\\_with\\_lrb.pdf](https://docs.legis.wisconsin.gov/code/misc/chr/lrb/chr_13_081_final_rule_filed_with_lrb.pdf)). A bill was proposed to basically push this back up, to a maximum of 26 weeks (2017 AB 131/SB 83), but the bill obviously did not pass. In addition, DWD was apparently told by the US DOL that even a 26-week waiver as contemplated in those bills would not be considered compliant with federal law, though we could potentially go higher than the 8/+4 framework in the current rule.

So I'm not sure which of these you were referring to and whether you think you need anything drafted, but hope that helps. As always, it's recommended that any UI law change be run by DWD at some point if possible to confirm it doesn't raise federal conformity issues, though obviously anything that is consistent with current statutes and rules is unlikely to pose a problem. Happy to chat on the phone tomorrow.

- 1 AN ACT *to amend* 108.04 (2) (a) 3. (intro.) of the statutes; **relating to:** an
- 2 exemption from work search requirements for certain individuals claiming
- 3 unemployment insurance benefits.

***Analysis by the Legislative Reference Bureau***

This bill provides that a claimant for unemployment insurance benefits who reasonably expects to be reemployed by the claimant's former employer within 26 weeks is exempt from the eligibility requirement of conducting weekly searches for suitable work.

Under current law, a claimant is generally required to conduct searches for work each week to be eligible for unemployment benefits. Current law provides that a claimant who is laid off is exempt from the work search requirement if the claimant reasonably expects to be reemployed by the former employer and the Department of Workforce Development verifies that expectation. DWD may grant a claimant a waiver of the work search requirement under certain conditions. Administrative rules promulgated by DWD require DWD to grant a claimant a waiver of the work search requirement for eight weeks if the claimant reasonably expects to be reemployed with the claimant's employer within that period. The rules permit DWD to provide an additional four-week extension of that waiver. The rules also provide additional reasons a claimant may qualify for a waiver.

This bill modifies current law to specifically provide that a claimant is exempt from the work search requirement for up to 26 weeks after the week the claimant was laid off if the claimant reasonably expects to be reemployed within that 26-week period.

It modifies the current framework for work search waivers for claimants who are laid off and have a reasonable expectation of being reemployed within an eight-week period, subject to a four-week extension.

Sorry about the delay in getting this to you. Here's some information on the what we'd like to have included in the draft we previously discussed. - A. Statute does not specify conditions under which a claimant is waived from work search. Currently, waiver of work search is contained in the administrative code. There are various reasons work search is waived. One of them is a reasonable expectation of recall.

***Waiver of work search requirements are currently contained in DWD § 127.02:***

**Waiver of work search requirements.** The department shall waive a claimant's requirement to conduct at least 4 actions to search for suitable work if any of the following apply:

- (1) The claimant performs any work for his or her customary employer.
- (2) The claimant is currently laid off from employment with an employer but there is a reasonable expectation that the claimant will be returning to employment within a period of 8 weeks, which may be

extended an additional 4 weeks but may not exceed a total of 12 weeks. In determining whether the claimant has a reasonable expectation of reemployment by the employer, the department shall request the employer to verify the claimant's employment status. If the employer does not verify the claimant's employment status, the department may consider any of the following:

(a) The history of layoffs and reemployments by the employer.

(b) Any information that the employer furnished to the individual concerning the claimant's anticipated reemployment date.

(c) Whether the claimant has recall rights with the employer under the terms of any applicable collective bargaining agreement.

(3) The claimant has a reasonable expectation of starting employment with a new employer within 4 weeks and the employer has verified the anticipated starting date with the department. The waiver shall not exceed 4 weeks.

(4) The claimant has been laid off from work and routinely obtains work through a union referral and all of the following apply:

(a) The union is the primary method used by workers to obtain employment in the claimant's customary occupation.

(b) The union maintains a record of unemployed members, and the referral activities of these members, and allows the department to inspect such records.

(c) The union provides, upon the request of the department, any information regarding a claimant's registration with the union or any referrals for employment it has made to the claimant.

(d) Prospective employers of the claimant seldom place orders with the public employment office for jobs requiring occupational skills similar to those of the claimant.

(e) The claimant is registered for work with a union and satisfies the requirements of the union relating to job referral procedures, and maintains membership in good standing with the union.

(f) The union enters into an agreement with the department regarding the requirements of this subsection.

(6) The claimant is summoned to serve as a prospective or impaneled juror.

(7) The claimant is enrolled in and satisfactorily participating in a course of approved training under s. 108.04 (16), Stats., in a work share program under s. 108.062 (10m), Stats., or in a self-employment assistance program or another program that has been enacted by the Wisconsin or federal legislature and the program includes that claimants who participate in the program shall be waived by the department from work search requirements.

(8) The claimant has not made a search for suitable work because of an error made by personnel of the department.

(9) The claimant's most recent employer failed to post appropriate notice posters as to claiming unemployment benefits as required under s. DWD 120.01 and the claimant was not aware of the work search requirement.

(11) The claimant has been referred for reemployment services, is participating in such services, or is not participating in such services, but has justifiable cause for failure to participate. Justifiable cause includes that the claimant is unable to participate due to any of the following:

(a) The claimant is summoned to serve as a prospective or impaneled juror.

(b) The claimant is enrolled and satisfactorily participating in a course of training approved by the department, in a work share program under s. 108.062 (10m), Stats., or in a self-employment assistance program or another program that has been enacted by the Wisconsin or federal legislature and the program includes that claimants who participate in the program shall be waived by the department from work search requirements.

(c) The claimant is employed.

(d) The claimant is attending a job interview.

(e) Circumstances which the department determines are beyond the claimant's control.

B. Similar to above, waiver from work registration (registering on Job Center of Wisconsin (JCW)) is contained in the code, not statute.

**Waiver of work registration requirements are currently contained in DWD §126.03:**

**Waiver of work registration requirement.** The department shall waive a claimant's work registration requirement for any given week if any of the following apply:

(2) The claimant is currently laid off from employment with an employer but the employer has verified with the department there is a reasonable expectation that the claimant will be returning to employment within a period of 8 weeks, which may be extended an additional 4 weeks but may not exceed a total of 12 weeks. If the employer does not verify the claimant's employment status, the department may consider any of the following:

(am) The history of layoffs and reemployments by the employer.

(bm) Any information that the employer furnished to the individual concerning the claimant's anticipated reemployment date.

(cm) Whether the claimant has recall rights with the employer under the terms of any applicable collective bargaining agreement.

(3) The claimant has a reasonable expectation of starting employment with a new employer within 4 weeks and the employer has verified the anticipated starting date with the department. The waiver shall not exceed 4 weeks.

(4) The claimant has been laid off from work and routinely obtains work through a union referral and all of the following apply:

(a) The union is the primary method used by workers to obtain employment in the claimant's customary occupation.

(b) The union maintains a record of unemployed members, and the referral activities of these members, and allows the department to inspect such records.

(c) The union provides, upon the request of the department, any information regarding a claimant's registration with the union or any referrals for employment it has made to the claimant.

(d) Prospective employers of the claimant seldom place orders with the public employment office for jobs requiring occupational skills similar to those of the claimant.

(e) The claimant is registered for work with a union and satisfies the requirements of the union relating to job referral procedures, and maintains membership in good standing with the union.

(f) The union enters into an agreement with the department regarding the requirements of this subsection.

(5) The claimant is summoned to serve as a prospective or impaneled juror.

(6) The claimant is enrolled in and satisfactorily participating in a course of approved training under s. 108.04 (16), Stats., in a work share program under s. 108.062 (10m), Stats., in a self-employment assistance program, or another program enacted by the Wisconsin or federal legislature and the program includes that claimants who participate in the program shall be waived by the department from work registration requirements.

(7) The claimant is unable to complete registration due to circumstances which the department determines are beyond the claimant's control.

- D. ***Currently, DWD §127.04(1) provides that upon request, a claimant shall provide verification of conducting at least 4 work search actions to the department by computer-based programs or other methods approved by the department. By policy, the department requires the claimant to provide their work search verification information when filing their online weekly claim. Before this policy was in place, claimants were only required to provide their work search verification during a re-employment services session or during a random audit, both after the week they were paid.***

**Statutory language could codify this policy and provide:**

A claimant shall provide verification of conducting at least 4 work search actions to the department when filing a weekly claim certification.

4 benefits and requiring the exercise of rule-making authority.

*Analysis by the Legislative Reference Bureau*

Under current law, a claimant for unemployment insurance benefits is generally required to conduct searches for work each week to be eligible for unemployment benefits. Current law provides that a claimant who is laid off is exempt from the work search requirements if the claimant reasonably expects to be reemployed by the former employer and the Department of Workforce Development verifies that expectation. DWD may grant a claimant a waiver of the work search requirement under certain conditions. Administrative rules promulgated by DWD require DWD to grant a claimant a waiver of the work search requirements for eight weeks if the claimant reasonably expects to be reemployed with the claimant's employer within that period. The rules permit DWD to provide an additional four-week extension of that waiver. The rules also provide additional reasons a claimant may qualify for a waiver and require claimants for whom the requirements are not waived to provide verification of having complied with work search requirements. This bill codifies the current framework for work search waivers for claimants who are laid off and have a reasonable expectation of being reemployed within an eight-week period, subject to a four-week extension.

***Analysis by the Legislative Reference Bureau***

Under current law, a claimant for unemployment insurance benefits is generally required to conduct searches for work each week to be eligible for unemployment benefits and to register for work. Current law provides that a claimant who is laid off is exempt from these requirements if the claimant reasonably expects to be reemployed by the former employer and the Department of Workforce Development verifies that expectation. Administrative rules promulgated by DWD require DWD to grant a claimant a waiver of the work search and registration requirements for eight weeks if the claimant reasonably expects to be reemployed with the claimant's employer within that period and allow an additional four-week extension of that waiver. The rules also provide additional reasons a claimant may qualify for a waiver and require claimants for whom the requirements are not waived to provide verification of having complied with work search and registration requirements.

This bill codifies the current waivers contained in DWD's rules for work search and registration requirements and the requirement that a claimant provide verification of having complied with work search and registration requirements.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

***Analysis by the Legislative Reference Bureau***

Under current law, a claimant for unemployment insurance benefits is generally required to conduct searches for work each week to be eligible for unemployment benefits and to register for work. Current law provides that a claimant who is laid off is exempt from these requirements if the claimant reasonably expects to be reemployed by the former employer and the Department of Workforce Development verifies that expectation. Administrative rules promulgated by DWD require DWD to grant a claimant a waiver of the work search and registration requirements for eight weeks if the claimant reasonably expects to be reemployed with the claimant's employer within that period and allow an additional four-week extension of that waiver. The rules also provide additional reasons a claimant may qualify for a waiver and require claimants for whom the requirements are not waived to provide verification of having complied with work search and registration requirements.

*The bill allows DWD to modify or eliminate a waiver, or to create additional waivers, if doing so is necessary to comply with federal law.*

This bill codifies the current waivers contained in DWD's rules ~~for work search and registration requirements~~ and the requirement that a claimant provide verification of having complied with work search and registration requirements.

***Analysis by the Legislative Reference Bureau***

Under current law, a claimant for unemployment insurance benefits is generally required to conduct searches for work each week to be eligible for unemployment benefits and to register for work. Current law provides that a claimant who is laid off is exempt from these requirements if the claimant reasonably expects to be reemployed by the former employer and the Department of Workforce Development verifies that expectation. Administrative rules promulgated by DWD require DWD to grant a claimant a waiver of the work search and registration requirements for eight weeks if the claimant reasonably expects to be reemployed with the claimant's employer within that period and allow an additional four-week extension of that waiver. The rules also provide additional reasons a claimant may qualify for a waiver and require claimants for whom the requirements are not waived

However  
to provide verification of having complied with work search and registration requirements.

This bill eliminates DWD's authority to establish waivers from work search and registration requirements and codifies the current waivers contained in DWD's rules. The bill also codifies the requirement that a claimant provide verification of having complied with work search and registration requirements.

The bill allows DWD to modify or eliminate a waiver, or to create additional waivers, if doing so is necessary to comply with federal law, or is specifically allowed under federal law.

***Analysis by the Legislative Reference Bureau***

Under current law, a claimant for unemployment insurance benefits is generally required to conduct searches for work each week to be eligible for unemployment benefits and to register for work. Current law provides that a claimant who is laid off is exempt from these requirements if the claimant reasonably expects to be reemployed by the former employer and the Department of Workforce Development verifies that expectation. Administrative rules promulgated by DWD require DWD to grant a claimant a waiver of the work search and registration requirements for eight weeks if the claimant reasonably expects to be reemployed with the claimant's employer within that period and allow an additional four-week extension of that waiver. The rules also provide additional reasons a claimant may qualify for a waiver and require claimants for whom the requirements are not waived

to provide verification of having complied with work search and registration requirements.

This bill eliminates DWD's authority to establish waivers from work search and registration requirements and codifies the current waivers contained in DWD's rules. However, the bill allows DWD to modify or eliminate a waiver, or to create additional waivers, if doing so is necessary to comply with federal law or is specifically allowed under federal law. The bill also codifies the requirement that a claimant provide verification of having complied with work search and registration requirements.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
